

LEARN TO STUDY USING... Concrete Examples

USE SPECIFIC EXAMPLES TO UNDERSTAND ABSTRACT IDEAS

HOW TO DO IT

Collect examples your teacher has used, and look in your class materials for as many examples for as many examples as you can find.

Make the link between the idea you are studying and each example, so that you understand how the example applies to the idea.

Share examples with friends, and explain them to each other for added benefits.

HOLD ON!

You may find examples on the internet that are not used appropriately. Make sure your examples are correct - check with your teacher.

Ultimately, creating your own relevant examples will be the most helpful for learning.
